## S U M M A R Y

I am a dynamic and motivated programmer with a passion for technology and a keen interest in software development. My journey in the world of programming has equipped me with a solid foundation in HTML, CSS, and Python, allowing me to translate innovative ideas into practical, user-friendly solutions.

## S K I L L S

- Python Programming
- C Programming
- HTML
- CSS

## E X P E R I E N C E

### Codsoft | Work From Home,Remote.

Python Intern • 15 Oct 2023 -15 Nov 2023

- I progressed through three levels of projects in python programming journey.
- Initially, I crafted a simple calculator laying the foundation for my skills.
- Each project served as a stepping stone, enabling me to evolve from a novice to a proficient programmer.

## P R O J E C T

### Developed a ML Model for Recommendation of Books

- Based on the historical borrowing of data and feedback of the customers.
- Books will suggested by the model to both customers and sellers.

### Home Automation using Raspberry Pi (IOT)

- It is a IOT Based Home Automation System using Raspberry Pi
- This project presents a prototype of an intelligent home automation to control the home appliances and electrical and electronic equipment via a web interface which can be accessed by smartphones.

## E D U C A T I O N

### Sri Indu College of Engineering and Techonology | Hyderabad

Bachelor of Techonology • 2021-2025

Electronics and Communications Engineering • CGPA : 8.6 (upto: 2,2)

### Gouthami Junior College | Nalgonda

Intermediate • 2021-2025

MPC • Percentage: 79%

### Sri Sravanthi Vidya Nikethan High School | Nalgonda

SSC • 2019

## C E R T I F I C A T I O N S

### Python (Basic)

Hacker Rank -2023

### Internship on Python programming

Codsoft - 2023

### Certificate of Merit in Academics

Sri Indu College of Engg & Tech -2023

### 24 Hours Hackthon on AI - ML and Data Science

Brainovision Solutions India Pvt.Ltd -2023

### The Joy of Computing Using Python

NPTEL - 2023

### Python for Data Science, AI & Development

IBM - 2023
